Shortwood Carvings Catalogue

Welcome to our new Peter Evans Studios Shortwood Carvings catalogue. There have been some improvements and additions.

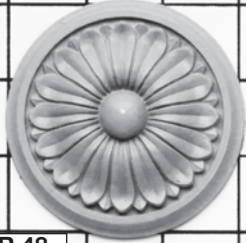

These mouldings are made in FR ABS to resemble wood carvings. They can normally be fixed to most pieces of furniture or scenery with a mixture of glue and, if necessary, fine panel pins (pre-drilling them first). If in doubt try a small test piece.

We aim to keep good stock of these mouldings.

The items in our catalogue are photographed on a 25mm square grid, so it should be possible to work out the sizes. It is also possible to photocopy the pages in our catalogue, cut out individual mouldings and arrange the items you are interested in so you can see what they would look like as a group.
