

# Corinthian Columns

## Standard Size Columns made in GRP (Glassfibre)

Columns can be made shorter than the overall height.

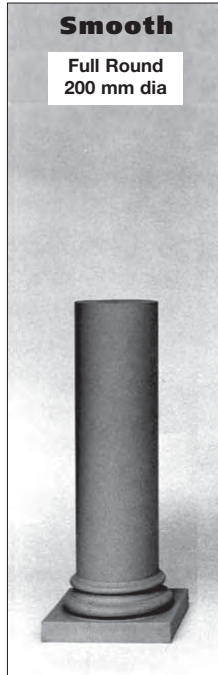

We can make them taller than the maximum overall height, this is a more complex operation requiring a special quotation.

# Smooth Column Plinths • Corinthian Fluted Columns

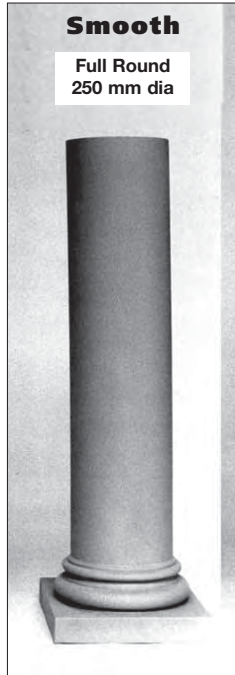

Columns and plinths made in ABS and PVC Tube suitable for stage, studio, shop fitting display and exhibitions. Not permanent outside use. Parallel shaft means columns of any length of up to 6m can be supplied. With four column diameters, and three capital styles, these columns and plinths represent very good value. Caps and bases can be supplied separately for customers to fit their own tubes.
